Adobe Connect Server 7.5 Service Pack 1 (основной сервер)

Category	Requirements
Supported operating system	Microsoft Windows Server® 2008R2 and 2003 with Service Pack 2 (32 bit or 64 bit; Brazilian Portuguese, Chinese Simplified, Dutch, English, French, German, Italian, Japanese, Korean, Spanish, and Russian)
Hardware requirements	<p>2GHz Intel Pentium 4 processor (3GHz dual-core Intel Xeon® or faster recommended)</p> <ul style="list-style-type: none"> • 4GB of RAM • CD-ROM drive • 2GB of available hard-disk space for Connect Enterprise installation • 150GB of available hard-disk space for content storage; disk space requirements will increase as more content is stored • NTFS file system (FAT32 file systems not supported) <p>Adobe Connect Server deployment with SSL enabled</p> <ul style="list-style-type: none"> • SSL Hardware Accelerator or built-in Connect Enterprise software SSL <p>Adobe Connect Server deployment on virtualized systems</p> <ul style="list-style-type: none"> • VMware ESX 4.0 <p>Note that your needs will vary depending on deployment size and usage. For specific configuration requirements, contact your sales representative.</p>
Database requirements	Microsoft SQL Server 2008 Update 1 and 2005 Express Edition with Service Pack 3 (Microsoft SQL Server 2005 Standard Edition with Service Pack 3 recommended)
Shared storage requirements	<p>For deploying Adobe Connect Server with network attached storage or storage area networks, the following specifications are recommended:</p> <ul style="list-style-type: none"> • Disk specs: 10,000-15,000 RPM — Fibre Channel preferred • Network link: TCP/IP — 1GB I/O throughput or better • Controller: Dual controllers with Active/Active multipatch capability • Protocol: CIFS or equivalent

	Note that your needs may vary depending on deployment size and usage.
Network requirements	100Mbps Ethernet (1Gbps recommended)
Port requirements	1935 (RTMP), 80 or other HTTP port, 443 if SSL is enabled, 25 for SMTP (optional), 1433 for external database (optional)
LDAP directory servers	<p>For deploying Adobe Connect Server with directory services integration, any LDAP-compliant directories. The following LDAP directory servers have been tested with Adobe Connect:</p> <ul style="list-style-type: none"> • Active Directory Application Mode (ADAM) with Service Pack 1 for Windows Server 2003 • Active Directory (Windows Server 2003) Windows Server 2003 and later • Active Directory (Windows 2000 Server) • IBM Tivoli Directory Server 6.1 • Novell eDirectory 8.8 • OpenLDAP 2.3.35 • Sun™ Java™ System Directory Server 5.2

Note: Real-time virus checking directly on the server is not recommended.

Adobe Connect Edge Server 7.5 (пограничный сервер)

Review this table to determine the system configuration necessary to accommodate Adobe Connect Edge Server.

Component	Requirements
Supported operating system	Microsoft Windows Server 2003 with Service Pack 1 (all 32-bit editions)
Hardware requirements	<ul style="list-style-type: none"> • 3.2GHz Intel Pentium 4 processor (dual-core Intel Xeon or faster recommended) • 2GB of RAM (4GB recommended) • 100Mbps Ethernet (1Gbps recommended)

Universal Voice using Flash Media Gateway

In order to use Universal Voice, you will need to install and configure Flash Media Gateway. Flash Media Gateway needs to be configured to place calls through a SIP-compliant end point that allows calls to be routed to your preferred audio conferencing service.

While Flash Media Gateway can be installed on the same system as the application server, it is recommended that it be installed on a separate system.

Component	Requirements
Supported operating system	Microsoft Windows Server 2003 32-bit edition with Service Pack 2
Hardware requirements	<p>2GHz Quad-Core Intel Xeon processor (3GHz 2x Quad-Core Intel Xeon processor or faster recommended)</p> <ul style="list-style-type: none"> • 4GB of RAM • CD-ROM drive • 2GB of available hard-disk space for installation • 10GB of available hard-disk space for operation • NTFS file system (FAT32 file systems not supported)

Network requirements	<p>Network link:</p> <ul style="list-style-type: none"> • TCP/IP — 100Mbps (1Gbps recommended) • Port 5060 TCP • An additional two ports are required for each concurrent meeting that uses Universal Voice. These ports are configured as a range (example: 5,000–6,000 would support 500 meetings using Universal Voice).
----------------------	--

Adobe Connect Add-in for Microsoft Outlook

If you want to schedule Adobe Connect meetings within Outlook, you must install the Acrobat Connect Add-in for Microsoft Outlook on each system that has Outlook installed. The following hardware and software are required.

Component	Requirements
Adobe Connect	Active Adobe Connect Meeting account on Adobe Connect version 6 with Service Pack 2 or later
Software	Microsoft Outlook 2003 or 2007
Operating system	Microsoft Windows XP or Windows Vista Home Basic, Home Premium, Ultimate, Business, or Enterprise, and Windows 7
Server and processor	200MHz Intel Pentium or faster processor
Memory	32MB of RAM
Hard drive	5MB of available hard-disk space

Adobe Connect Add-in for IBM Lotus Notes

If you want to schedule Adobe Connect meetings within IBM Lotus Notes, you must install the Acrobat Connect Add-in for IBM Lotus Notes on each system that has Lotus Notes installed. The following hardware and software are required.

Component	Requirements
Adobe Connect	Active Adobe Connect Meeting account on Adobe Connect version 7.0 or later
Software	<p>For the standalone Java plug-in:</p> <ul style="list-style-type: none"> • Lotus Domino 8.x (Windows only) • Lotus Notes 8.5 or later (Windows and Mac OS) <p>For the modified mail template:</p> <ul style="list-style-type: none"> • Lotus Domino 7.0.x (Windows only) • Lotus Notes 7.0.x, Lotus Notes 7.0.3 recommended (Windows only)
Operating system	Microsoft Windows XP or Windows Vista Home Basic, Home Premium, Ultimate, Business, or Enterprise
Server and processor	200MHz Pentium or faster processor
Memory	32MB of RAM
Hard drive	5MB of available hard-disk space
